

PROJECT

Objective: boost innovation in more than 140 construction SMEs, thanks to 3.75 M€ funding.

METABUILDING is an H2020 project funded by the Executive Agency for Small and Medium-sized Enterprises (EASME).

15 project partners join forces to drive innovation to the "traditional" value chain of the Construction sector, by creating an **innovation ecosystem stimulating cross-sectoral and cross-border collaboration** as well as a dedicated **Digital Platform**.

TARGETS

The project targets SMEs from 5 industrial sectors:

**Construction · Digital Industry
Additive Manufacturing · Circular
Economy**

Nature Based Solutions

From 6 countries

**Austria · France · Hungary
Italy · Portugal · Spain**

INNOVATION FUNDING AND SUPPORT FOR SMES OF THE BUILT ENVIRONMENT SECTOR

This project has received funding from the European Union's Horizon 2020 Research and Innovation Programme under Grant Agreement No. 873964.

INNOVATION FUNDING

Cascade Funding is a mechanism of the European Commission to distribute funding to final receiver like SMEs channeled through European projects.

The METABUILDING project will finance up to € 5 000 for the verification of technical, legal and commercial aspects of Innovation Projects, or will subsidize Collaborative Projects up to € 55 000.

To be eligible SMEs have to belong to one of the target countries and sectors.

For Collaborative Projects Construction sector SMEs have to team up with an SME of another target sector.

Calls for proposals will be published on the project website www.metabuilding-project.eu and on the Funding & Tenders portal of the European Commission.

INNOVATION SUPPORT PLATFORM

METABUILDING will create a **Digital Platform** accessible to all building stakeholders, to:

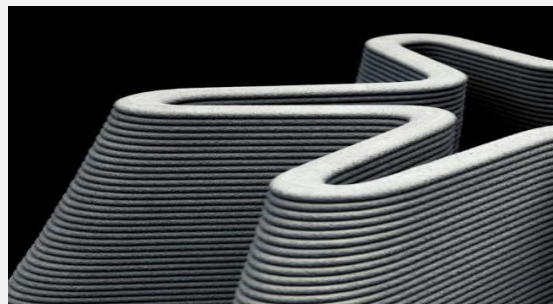

- Find partners
- Join collaborative projects
- Discover the latest innovative technologies
- Find out about existing funding

The digital platform will be closely linked to the **European Construction Technology Platform** (ECTP) and is supposed to become an important tool for SME innovation and collaboration in Europe.

INNOVATION ECOSYSTEM

The project integrates regional clusters into its ecosystem, giving them a voice at European level and allowing their SME members to access other markets.

METABUILDING IMPACTS

- **Provide direct support** - financial or non-financial - to SME innovation.
- **Strengthen the competitiveness of SMEs** through international collaboration.
- **Support for SMEs to get out of the COVID-19 crisis** through innovation.
- **Stimulate of the innovation potential of the Construction sector** through cross-sectoral and cross-border collaboration.
- **Establish a digital platform facilitating business and innovation** in an enlarged Built Environment Sector.
